Re: *Ex Parte* Notice

Appropriate Regulatory Treatment for Broadband Access to the Internet over Cable Facilities, CS Docket No. 02-52; Appropriate Framework for Broadband Access to the Internet over Wireline Facilities, CC Docket No. 02-33; and IP-Enabled Services, WC Docket No. 04-36.

Dear Ms. Dortch:

On Tuesday, June 28, 2005, representatives of the Telecommunications Industry Association (TIA) met with Jessica Rosenworcel, Legal Advisor to Commissioner Michael Copps. The TIA representatives were Doug Cooper, Paul Kenefick, Jack Cutts, Louise Tucker, and the undersigned. The purpose of the meeting was for TIA to discuss the Commissioner's agenda in light of the recent *Brand X* decision to classify cable modem services as information services under the Telecom Act. TIA urged that the Commission maintain a path consistent with its earlier ruling that cable modem services, and broadband services in general, are information services. TIA's paper entitled "Convergence Policy Agenda" is submitted as an attachment hereto.

Pursuant to Section 1.1206 of the Commission's Rules, 47 C.F.R. § 1.1206, a copy of this submission is being provided to Ms. Rosenworcel. Please contact the undersigned with any questions in connection with this filing.

Respectfully submitted,

/s/ Danielle Jafari
